# **BIGSPOTLOAN COMPANY INCOME ABOUT COMPANY**

## **WE ARE HERE AS REALESTATE COMPANY TOO**

Real estate is property consisting of land and the buildings on it, along with its natural resources such as growing crops (e.g. timber), minerals or water, and wild animals; immovable property of this nature; an interest vested in this (also) an item of real property, (more generally) buildings or housing in general.[1][2] In terms of law, real relates to land property and is different from personal property while estate means the "interest" a person has in that land property.[3]

Real estate is different from personal property, which is not permanently attached to the land (or comes with the land), such as vehicles, boats, jewelry, furniture, tools, and the rolling stock of a farm and farm animals.

In the United States, the transfer, owning, or acquisition of real estate can be through business corporations, individuals, nonprofit corporations, fiduciaries, or any legal entity as seen within the law of each U.S. state

## **WE ARE ALSO IN TELE NETWORKING AND FOREX TRADING**

**Telemarketing is the direct marketing of goods or services to potential customers over the telephone, Internet, or fax. Telemarketing may either be carried out by telemarketers or increasingly by automated telephone calls or "robocalls." Telemarketing is oftentimes part of a company's marketing plan or campaign.**

**The intrusive nature of telemarketing, as well as reports of scams and fraud perpetrated over the telephone, has spurred a growing backlash against this direct marketing practice.**

**Telemarketing may also be referred to as "telesales" or "inside sales."**

**Forex trading, also known as FX trading, involves buying and selling different currencies with the aim of making a profit. At its core, forex trading is about capturing the changing values of pairs of currencies.**

**Let's delve into the details:**

## **What Is Forex Trading?**

- **Foreign exchange (forex or FX) is the global marketplace for exchanging national currencies.**
- **It lacks a central physical marketplace; instead, currency trading occurs electronically over the counter (OTC) via computer networks among traders worldwide.**
- **The forex market operates 24 hours a day, five and a half days a week, spanning major financial centers across different time zones.**
- **Currencies are traded in pairs, such as EUR/USD (euro against the U.S. dollar).**

## **How Does the Forex Market Work?**

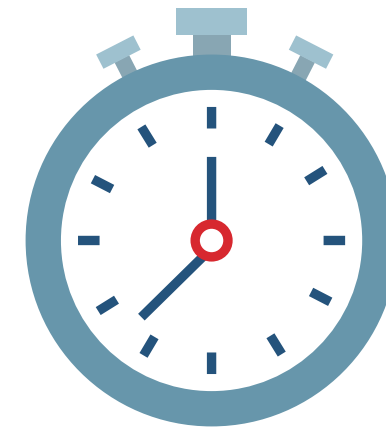

- **The forex market is the largest and most liquid asset market globally.**
- **It was once dominated by institutional firms and large banks but has become more retail-oriented, with traders and investors of all sizes participating.**
- **There are no physical buildings functioning as trading venues; instead, it's a network of connected trading terminals and computer networks.**
- **Market participants include institutions, investment banks, commercial banks, and retail investors from around the world.**
